dxian@internexus.edu

Dear Bryan,

Per temporary policies approved by the Commission, the *CEA Policies and Procedures* allow for an extension of a period of accreditation under certain circumstances:

Effective July 2020, in cases where the reaccreditation timeline cannot be met due to CEA's scheduling constraints or unexpected circumstances at the site related to COVID-19, CEA will permit extensions to the period of accreditation not to exceed three CEA cycles, that is, by up to one year.

(Section 23.2. Extensions of term of accreditation)

An extension for the period of accreditation has been approved for this school. This letter provides notification that the term of accreditation end date has been extended from December 2021 to August 2022 for Internexus San Diego (CEA ID 1064).

We will amend our records, update the Directory of Accredited Sites available to the public on the CEA website, and update the U.S. Department of Education database with the revised date of expiration for this site. If you are certified by SEVP, this letter can be used as evidence to inform SEVP of the extension of your term of accreditation.

Please let me know if you have any remaining questions about this policy or your revised timeline.

Sincerely,

Heidi E. Vellenga, Ph.D.
Executive Director
